

'Flipped Learning' Homework Autumn 1st 2019

As part of our history curriculum we are looking at the
History of Toys

We would like you to research this topic at home.

Some of the unit objectives we will be covering in class:

Reception:

Understanding the World: I am learning about similarities and differences in relation to places, objects, materials and living things.

Year 1 and Year 2: History:

I am learning about changes within living memory.

I am learning about aspects of change in national life through a study of toys through my family's lifetime and beyond.

Science: Everyday materials: I can name different materials. I can talk about their properties and uses.

POSSIBLE ACTIVITIES TO DO AT HOME

- What is your favourite toy and why? Ask your parents and/or your grandparents what their favourite toys were.
- Have the materials that toys are made out of changed?
- Look at the history of teddy bears or another chosen toy.
 - Make your own toy shop or museum.
 - Art or craft - create pictures or models of traditional toys.
 - Use your IT skills to create a powerpoint or ebook

The links below may help you:
