

Our first topic of the summer term is **time**. What do you know about time? Here are your challenges this week...

### Make a clock face

Look carefully at the clocks around your house. What numbers can you see? Where are the numbers on the clock face? Do all the clocks look the same? Why are the hands of the clock different lengths? Remember to position the 1-12 in the correct place then find the centre of the clock face to position the minute and hour hand correctly.

We have included a copy of the clock face if you need one.

What's your favourite story?

Take time to read or listen to a story.

### Time games

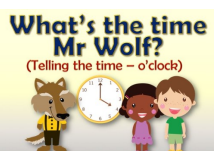

Try and estimate how long the following times are without looking at a watch or clock. How close can you get? What strategies can help you? (Counting in your head...)

10 seconds

30 seconds

60 seconds/1 minute

Who is the closest?

Play 'What's the time Mr. Wolf?'

### Explore the length of time

How long will it take you to...?

- write the alphabet
- jump 10 times
- read a page of your book
- draw a flower
- complete a jigsaw

### Days of the week

Talk about what day it is. It's Wednesday today so tomorrow is .... Yesterday was... After Friday it will be...

### Websites

Espresso has videos and activities linked to time. (Use login)

### Famous clocks

In London there is a famous clock tower. Big Ben is the name given to the massive bell inside the clock tower. Can you find out any interesting facts about the clock?

Are there any other famous clocks around the world? What do they look like? Where are they?
