60-Second Reads Guidance

Recent DfE Guidance stated that: In age-appropriate books, a year 2 pupil working at age-related expectations should read words accurately and fluently without overt sounding and blending at a rate of over 90 words per minute. This resource aims to give you the ability to test a pupil's level of fluency to this expected standard. Each 60-Second Read Activity Card features a short extract of age-appropriate text with an average word count of 90 words. The cumulative word count for each line of text is shown in the left-hand margin of each card. Each of the cards also contains a set of comprehension questions that link to the KS1 reading content domains. Each different question type has its own canine helper to remind children of what they need to do to answer a question appropriately:

Vocabulary Questions with Vocabulary Victor Vocabulary Victor will help you to look at how authors and poets have chosen to use certain words and phrases.

Sequence Questions with Sequencing Suki Sequencing Suki likes everything in order! She will help you sequence the events in a text.

Retrieval Questions with Rex Retriever Rex Retriever will help you to go into a text and retrieve the facts.

Inference Questions with Inference Iggy Inference Iggy will help you hunt for clues in a text about how someone might be feeling or why something is happening.

Prediction Questions with Predicting Pip Predicting Pip tries to see the future and she will help you work out what might happen next.
